PROFESSIONAL SUMMARY

Frontend Developer with 2.4+ years of experience building scalable, responsive web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Experienced in translating client wireframes and bi-weekly demo feedback into high-quality user interfaces within agile sprint cycles. Skilled in REST API integration, role-based authentication, state management, and performance optimization — delivering maintainable frontend architectures across logistics, job portal, and enterprise platforms.

CORE COMPETENCIES

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js

State Management: TanStack Query (React Query), Zustand

Styling & UI: Tailwind CSS, Mantine UI, Responsive Web Design

Database & APIs: PostgreSQL, MongoDB, REST API Integration, JSON

Development Tools: Git, GitHub, VS Code, Chrome DevTools, ESLint, Prettier, Axios

AI-Assisted Development: GitHub Copilot, Cursor, OpenAI Codex, Antigravity, OpenCode AI

Core Concepts: React Server Components, Component-Based Architecture, Wireframing, Agile/Scrum, Sprint Demos, Performance Optimization

PROFESSIONAL EXPERIENCE

Junior Software Engineer — Frontend Developer

SRYTAL Systems India Pvt Ltd Jan 2025 – Present | Hyderabad, India

Projects: BringEx – Logistics & Shipment Tracking Platform (In Progress) · JobSetu – Job Portal Platform · SRYTAL Systems Company Website

- Participated in daily standup calls, sharing updates on completed tasks and day's plan; submitted end-of-day progress reports to maintain full client and team visibility.
- Gathered client requirements and UX feedback, translating inputs into actionable sprint tasks; delivered feature demonstrations in bi-weekly client review cycles.
- Created wireframes and UI design mockups for client and team sign-off before commencing module development; iterated designs based on review feedback.
- Built responsive, scalable web applications using React.js, Next.js, TypeScript, HTML5, and Tailwind CSS, ensuring consistent cross-device UI experiences.
- Developed reusable React components and modular UI architectures using feature-based folder structures, custom hooks, and domain-driven organization.
- Integrated REST APIs using Axios and TanStack Query for efficient data fetching, caching, background synchronization, and optimistic UI updates.
- Implemented role-based authentication, protected routing, and form validation using React Hook Form and Zod across multi-role user applications.
- Managed client-side application state using Zustand and Context API, optimizing data flow across multiple role-specific dashboards.

- ▮ Leveraged Next.js App Router, React Server Components, and SSR to improve application performance, SEO, and initial page load times.
- ▮ Developed TanStack Table-powered shipment management modules with advanced search, filtering, sorting, pagination, and URL-synchronized state.
- ▮ Built Recharts-based analytics dashboards for real-time shipment tracking and operational reporting with interactive status timelines.
- ▮ Collaborated with backend developers to integrate APIs, troubleshoot issues, and ensure seamless end-to-end application functionality.

Frontend Developer Intern

Vanmayi Technologies Apr 2024 – Oct 2024 | Hyderabad, India

Completed a 6-month internship building and styling responsive web pages and UI components, gaining hands-on experience with modern frontend development practices and version-controlled collaborative workflows.

- ▮ Built responsive web pages and reusable UI components using React.js, HTML5, and CSS3, translating design mockups into functional interfaces.
- ▮ Wrote clean, maintainable JavaScript to implement interactive UI logic and client-side functionality.
- ▮ Tested and debugged components across different browsers and screen sizes to keep things looking consistent everywhere.

PROJECTS

BringEx – Logistics & Shipment Tracking Platform [In Progress]

Technologies: Next.js, TypeScript, Tailwind CSS, Mantine UI, TanStack Query, Zustand, Recharts, React Hook Form, Axios

- Scalable logistics management platform covering shipment lifecycle management, warehouse operations, driver tracking, and analytics reporting. Built with Next.js SSR, React Server Components, real-time dashboards, and role-based access control for enhanced operational visibility.

JobSetu – Job Portal Platform [Completed]

Technologies: React.js, TypeScript, Tailwind CSS, Mantine UI, MongoDB, Zustand, React Hook Form, Axios

- Multi-role job portal supporting Candidates, Employers, Recruiters, and Admins with role-based dashboards, advanced job search and filtering, protected routes, REST API integration, and form validation using React Hook Form and Zod.

SRYTAL Systems India Pvt Ltd – Company Website [Completed]

Technologies: React.js, TypeScript, Tailwind CSS, Mantine UI, MongoDB, Zustand, React Hook Form, Axios

- Official corporate website showcasing services, solutions, and organizational information with dynamic pages, contact forms, and fully responsive layouts ensuring seamless experience across mobile, tablet, and desktop.

EDUCATION

Bachelor of Technology — Civil Engineering

WISTM Engineering College, Affiliated to Andhra University | 2020 – 2023 | 70.02%

Diploma — Civil Engineering

Sri Vasavi Engineering College, SBTET Andhra Pradesh | 2019 | 68.37%

CERTIFICATIONS

React.js Development Certification — Udemy | 2026

Covers React fundamentals, component architecture, hooks, and modern frontend development practices.
